

Misteryo ng Itlog
Maricris Onquit
Abegail Bongalonta Dajac

 The Asia Foundation

Napakamapagmasid ni Kakay sa mga bagay-bagay kahit pitong taon pa lamang siya. Iniidolo kasi niya si Sherlock Holmes. At ginagaya niya ito. Libot siya ng libot doon sa kapitbahayan nila, bitbit ang magnifying glass ng nakatatanda niyang kapatid na babae at isang notebook. Dito niya sinusulat ang mga nakikita at naoobserbahan niya.

Bilang halimbawa:

Setyembre 6, Lunes.

Meron akong nakitang maliit na itlog sa dahon ng tanim ni Inay. Itlog kaya ito ng ano?

Setyembre 8,Miyerkoles.

Di ko pa rin talaga alam kung itlog ng anong hayop o insekto ang narito sa dahon.

Setyembre 10,Biyernes.

Napisa na ang itlog. Lumabas mula doon ang maliit na uod

Setyembre 12,Linggo.

Mabilis na lumaki ng uod. Magaling na kasi itong kumain.

Kinakain niya ang dahon na kinadidikitan niya.

Setyembre 18, Sabado.

Mas lalo pang lumaki ang uod. Nagpalipat-lipat na siya sa iba-ibang dahon at kumain ng marami.

Setyembre 20,Lunes.

Nawala na ang uod sa doon mga dahon, pero sa malapit na sanga, meron akong nakitang nakabitin at nababalot sa berdeng dahon.

Setyembre 25, Sabado.

Wala namang nagbago sa kulay berdeng bagay na nakabitin. Pareho pa rin ang itsura at ang kulay nito.

Setyembre 30,Huwebes.

Wala pa ring nagbabago sa kulay berdeng bagay na nakabitin. Ano kaya ang nasa loob nun?

Oktubre 5, Martes.

Naiinip na ako sa paghihintay kulay berdeng bagay na nakabitin. Ano kaya ang laman nun?

Oktubre 8,Biyernes.

“Ah! Alam ko na, paruparo pala ang nasa loob nung berdeng nakabitin. Nagsimula sa itlog, naging uod, at pagkalipas ng ilang araw ang uod ay naging paruparo na,” manghang sabi ni Kakay.

Oktubre 11,Lunes.

May napulot na naman akong maliit na parang bato. Kulay dilaw ito na napakakintab. Nang inilagay ko ito sa palad ko, lumipad naman ito na parang paruparo lang.
